Thursday, June 17, 1909.

Sixty Days After Election.

Last fall along about in the month of October we read extracts from a speech supposed to have been delivered at Glouster at that time by Emmet Thompson, a distinguished Republican politician and speaker, from Columbus, in which he said that in sixty days after Mr. Taft should be elected President, the wheels of industry would start and this country would see an unprecedented era of prosperity. We do not mention the depressed condition of business to be a calamity howler, neither do we enjoy it at the expense of our republican friends, for we do not rejoice at hard times any more than any other business men, but we just wanted to remind the gentle readers about the speech of Mr. Thompson; how he was fooling his hearers.

Bessie Furnace Closed.

Last week the fires of Bessie Furnace were drawn and the plant nailed up with no word as to when it will resume. "Another industry gone Republican," at least that is the unkind way that the Republican papers had of putting in Cleveland times, except they said then that it had "gone Democratic." Will our Republican friends have gall enough to ever lay "hard times" at the door of the Democratic party again. They surely cannot blame us Democrats if we take the opportunity to now dig them in the ribs a little. We remember when they called it "Democratic Hard Times." Say, Brother, whose times are these, after more than 12 years of Republican experiments, and now they are figuring on a lower tariff, a democratic measure, to help conditions.

Tampering With Mail Boxes.

There are some small boys going to get into serious trouble if their parents do not keep them away from the post-office. There are a great number of business men that neglect to lock their mail boxes when they get their mail, and some boys that loaf about the post-office have a habit of going along the tiers of boxes and trying to open them, many of them easily come open and the youngsters reach in and take out the mail. One boy opened a letter of a business man and was run down by investigation and he confessed his tampering with the letter and would now be in the reformatory, were it not that the merchant whose letter he opened asked that the boy be not prosecuted.

There was a gold bracelet mailed in a package to a Logan lady, and the post-office clerks remember of putting it in her box. She never got it. The box was unlocked. Suspicion lays close to a boy or two of good families. They may save trouble by returning the package, and also parents may save their boys and girls lots of trouble if they keep them away from the post-office.

Riot at Wellston.

A riot was brought about by the arrival of some twenty strikers at Wellston, Wednesday to take places of the striking moulder of the Peck Williamson foundry. According to reports trouble has been brewing several months and since the strike about two weeks ago things have been at boiling point. Hints had been strong that outsiders would be brought in and the strikers have been on the look-out day and night. Wednesday about 20 men from Cincinnati got off the train at Hamden and taking the Hooking Valley, came into Wellston at 10:50.

When the train stopped the moulder were there and according to report tried to persuade them to return and not take their places. The men started for the foundry across a lot and were at-

tacked with clubs, stones, sticks, hammers, etc. and when the smoke of action cleared away one was seriously injured others badly hurt and nearly all were retreating to the woods. According to reports there were from 250 to 600 in the crowd composed of men, women and children. The leader of the strike-breakers, John Brannigan had his jaw broken and his skull fractured. He was taken to the hospital for treatment. Some five of the men went down town and upon their statement that they were misinformed when hired they were permitted to return to their homes, but needed the escort of the police to get to the train. The fleeing men dropped umbrellas, raincoats, suit cases, etc., and the boys among the rioters broke and scattered articles of apparel in every direction. It is claimed the end is not yet as the company will ask for troops to protect their property and the lives of the men they employ. The original trouble comes from the refusal of the Peck-Williamson company to recognize the union.

Agricultural Extension Schools

Agricultural Extension Schools will be held in different parts of the state during the year, under the supervision of the College of Agriculture, Ohio State University, as authorized by the Alsder law passed during the last session of the legislature. While it is more convenient perhaps to hold these schools during the winter season, there may be some counties in which it would be preferable to hold them in the late summer or fall months on account of bad roads.

Instruction and demonstrations will be given in subjects related to agriculture and home-making. Bulletins giving general information regarding the management of the schools and instructional work have been issued and copies can be secured on application to A. B. Graham, Superintendent of Agricultural Extension, Columbus, Ohio.

School Enumeration.

Truant Officer J. K. Rochester took the school enumeration in the past few weeks and furnishes us the following figures of the number of school pupils in the different precincts:

First Ward, Logan	338
Second Ward, Logan	277
Third Ward, Logan	241
Fourth Ward, Logan	390
Total in Logan	1246
District outside of Logan	55

Grand total 1301
Grand total last year 1194

Gain over last year 107
The remarkable thing is, that in the corporation limits, there are 623 boys and 623 girls.

Improvement Society, Festival.

The Strawberry Festival by the Improvement Society Saturday night was a decided success, there being a large crowd present. The new Court Park was lighted, and it certainly put on a pretty attire. The Logan Band, always good, furnished most excellent music on this occasion. The receipts of the evening were about \$60.00, and there will be about \$35.00 net to the credit of the park fund of the society.

Mrs. Martha Davis is quite poorly with rheumatism.

ISLETTA.

* THINK THIS OVER.

We offer you money back if you use a large bottle of Rexall's "93" Hair Tonic and are not satisfied with what it does for you. We do this because it seldom fails to effect a complete cure of dandruff, scalp irritation and falling hair. Can you ask a better argument why you should try it? Two sizes, 50c. and \$1.00.

F. S. Case and Opera House Drug Store
The Rexall Stores

Little Raccoon Creek

TEST THE GOODNESS OF OUR MEN'S SHOES

We want every man to test our shoes; the proof of the pudding, etc. A trial is proof positive, while other evidence is hearsay. We'll mention three values.

In Mens Bates or Commonwealth Shoes, the best shoe made for the price of **\$3.00**

Tan, Russia Calf, Gun Metal and Patent Leather.

Also in Oxfords. They have medium toes and heels, straight or swing lasts; a shoe for style and service.

Also the finer grades in the same makes at **\$3.50 and \$4.00**

A little price proposition with all the new tucks in perforated tips and vamps and all kinds of leathers.

Nothing astonishing about the price, but see the shoes: better still purchase the shoes with a guarantee.

J. A. STIERS

Opposite the Park

Pleasant Valley

Children's day service at St. John's Lutheran church, Sunday, was well attended.

Rev. J. L. Baker and family, of Tupper Plains, visited Geo. Conkel and family, Monday.
